

## Advantages:

- \* Custom design according to test system requirements
- \* Maximum flexibility (vertical, horizontal, axial and angular)
- \* Adjustable closed length with telescopic feature
- \* Increased safety with lid open warning sensor
- \* Mounting concepts with bolts or quick-clamping elements
- \* S355J2 quality sheet metal fabrication
- \* Anti-skidding guide inner bearing in case of shaft breakage

## Options:

- \* Shaft lifting actuator
- \* RAL 1018 electrostatic powder coated
