

Special Design Test Table

PCS

Measurements:

Product Code	A	B	C	D	H
PBP-SD01	1500	750	265	300	340
PBP-SD02	2000	1000	275	600	350
PBP-SD03	4000	1500	275	1100	350
PBP-SD04	5000	1750	275	1350	350
PBP-SD05	6000	2000	285	1600	360

T-Slot channel slots (D) can optionally be positioned at different distances.

Features:

- ✦ Dimensioning and material selection with special design for the product to be tested
- ✦ Through-length t-slot duct pair for freedom of movement of product and system elements in linear direction
- ✦ T-slot grooving according to DIN Standards
- ✦ Stress relieving with stress relieving annealing after welded manufacturing
- ✦ Use and correct positioning of isolators calculated and selected according to system weight and vibration level
- ✦ End of design modal analysis application for resonance prevention and system improvement
